## Father's Day | Rockin' Card

### WHAT YOU'LL NEED

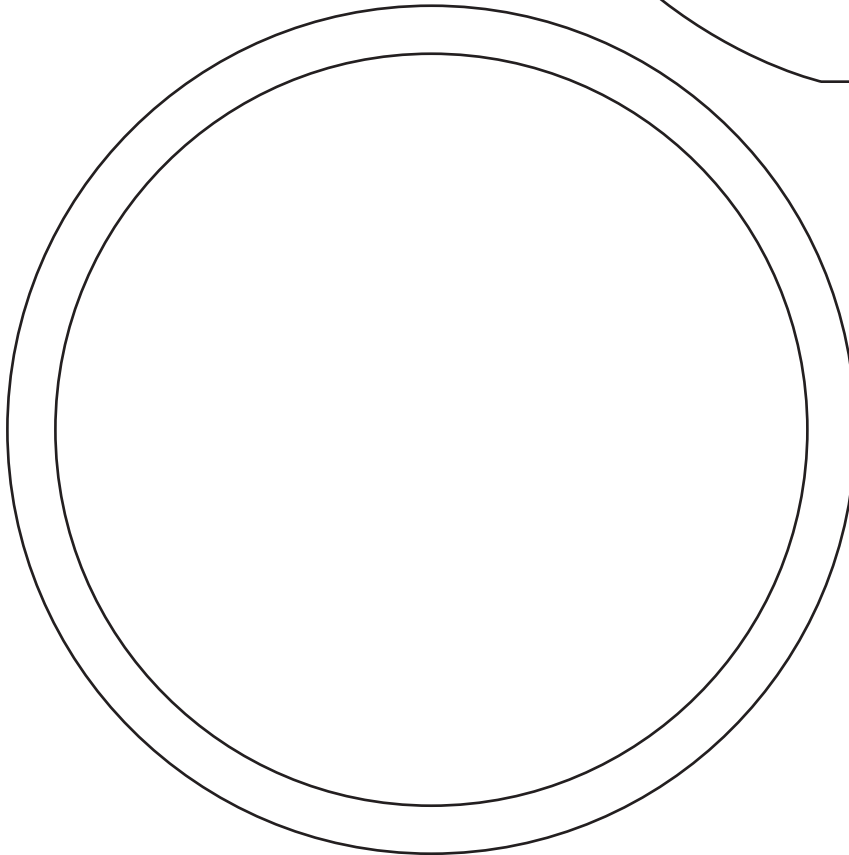

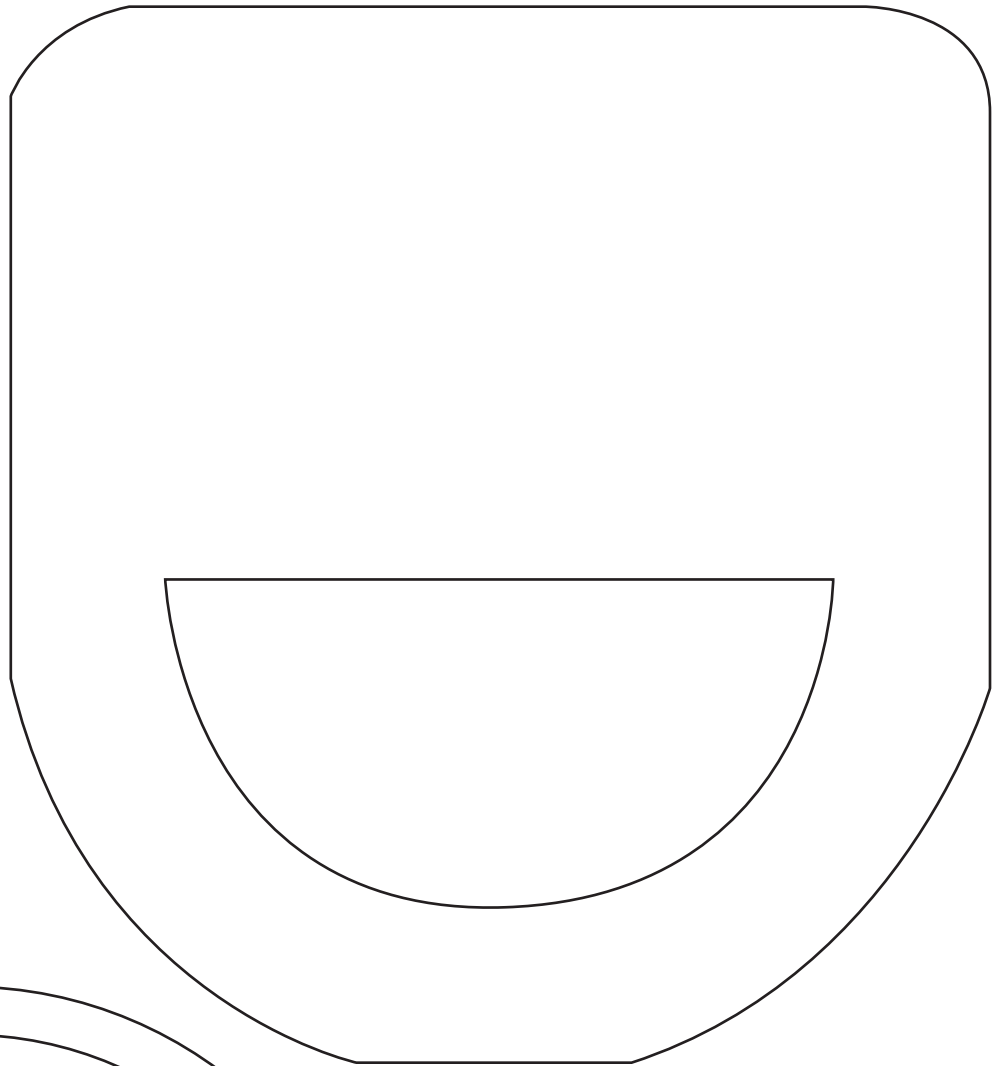

- Construction paper or cardstock in a few colors
- Metal brad
- Scissors
- Craft knife
- Black and silver pens

**1.** Cut a piece of paper to 5 x 11 inches, then fold in half lengthwise. Trace the template onto your paper and cut it out as instructed. Unfold, then use a craft knife (an adult's job) to cut out the window.

**2.** Cut out one or two circles from contrasting paper for the CD and position inside the CD player.

**3.** Using a craft knife (an adult's job), cut a small hole in the center of the circle and through the back of the card. Push a brad through to hold them together.

**4.** Decorate the card as you like with black and silver pens.
