GLOW BUGS

A quick craft perfect for a class party!

WHAT TO DO

1. Before the party:

Print a bug template for each child onto **cardstock**; trim as indicated. Cut 5 x 1¼-inch strips of cardstock in the same colors. Place a bug design, cardstock strip, and a battery-operated **tea light** into a **zip-top bag** for each child.

2. At the party:

Have the kids decorate their bugs and assemble the lights. Wrap the strip around the light and secure with **tape**. Then tape on the bug at the seam.
