## Thank You!

Thank you for ordering a WOOD® magazine download. We hope you enjoy being part of our online experience and that you have fun expanding your woodworking skills.

Please remember that this copyrighted material is for your use only. It is unlawful to share this file with someone else or to reprint it in any form.

Bill Krier  
Editor in Chief, WOOD magazine

## Adobe Acrobat Reader Troubleshooting Guide

If you can read this page, your Acrobat Reader program is working correctly! But you may still have problems or specific issues, such as printing and saving your downloadable file.

My printer won't print the text correctly  
Almost all printing problems are due to not enough free system resources memory. The files are very memory intensive because they include graphics, text, and photos. Close all other programs/applications and print directly out of the Acrobat Reader program, not your Web browser.

Patterns are not printing full-size  
Make sure your printer is set to print at 100 percent and that "print to fit" is not checked. These settings are selected in the printer setup or printer options.

I can't save my file now that it's downloaded  
You must save the plan when you download the file. Download the file again, except this time try right-clicking on the red download button. A menu window will open. Select "Save target as" or "Save link as" to save the file to your hard drive. Once saved, you can open it up with Adobe Acrobat Reader.

For more details on using Adobe Acrobat Reader please visit our online help section at:

# DOUBLE-DUTY TV SHELF/ CLAMP RACK

“What’s on TV tonight?”  
In this shop,  
it’s an  
organized set  
of clamps.

Every now and then the best-laid plans of woodworkers take a backseat to pure luck. When Randy Zimmerman built this corner shelf for his shop, his intention was to use it just to hold a portable TV. Later, however, he discovered that he'd allowed enough of an edge that his clamps could simply grip the front rail and

support cleats. Once the TV-shelf-turned-storage-center proved its merit, he added a second set of cleats into the

corner below the TV shelf for even more clamp storage. 🍀

Project design: **Randy Zimmerman**,  
Indianola, Iowa

#### QUICK TIP: PREVENT CLAMP MARRING

To keep clamps from marring project surfaces, use the plastic caps found on milk jugs as pads. Hold a pair of the caps, which normally aren't recycled with used jugs, in place with a few dabs of hotmelt glue.

—Jerry Pasley, Raleigh, N.C.
